

# Touch down on the red planet

**Space log 2020:** It had been a tough first day. Just getting to Mars had been dangerous enough but it was nothing to what happened on our first day. No-one would ever believe it ...

**Your task** is to tell the story of what happened during this first day.

**Imagine** what it would be like to arrive on Mars. Think about all the things that could go right and wrong as you begin your life there.

You can make your account **exciting** and **suspenseful** by keeping the action moving along.
